

PRODUCT GUIDANCE

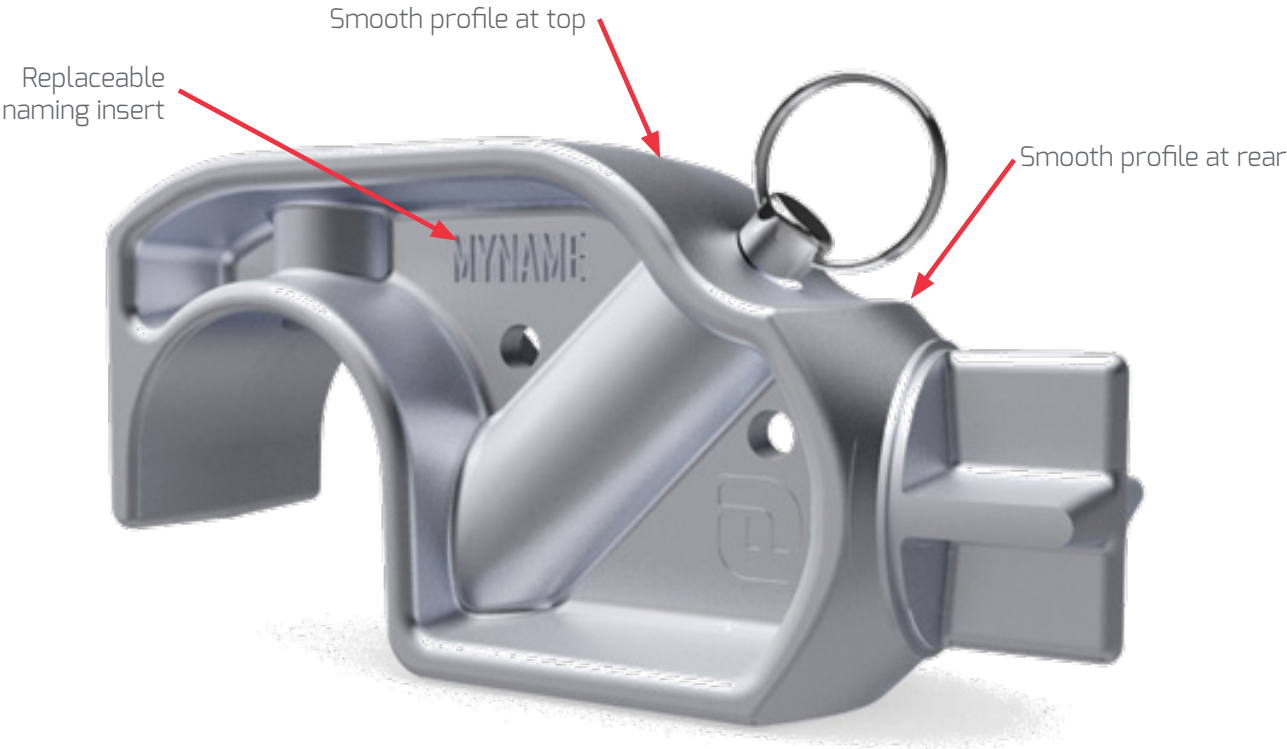

BRACE CLAW

PDG16006-

DESCRIPTION

DESSA have introduced an updated brace claw. This improved claw shall be fitted to all braces and brace frames going forward. The new brace claw features a smoother profile and an interchangeable branding plate to enable customers to order personalised products. The new profile is a result of computer modelling and is optimised for the latest robotic welding technology.

IMPROVEMENTS

- Drainage holes to provide better rainwater management for water collection when brace is positioned in a sideways orientation.
- Smoother and optimised profile for the latest robotic welding technology.

BRANDING

- The DESSA nameplate is now interchangeable. To order customised parts, new insert plates will be required and these should be ordered 4-6 weeks in advance of first call off. Charges apply. Contact DESSA for more details.
